NO. OF ENCLS.  
(LISTED BELOW)

DATE OF INFO. [REDACTED] 25X1C

SUPPLEMENT TO REPORT NO. 25X1X

From October to December 1949 there were evidences that the border between Czechoslovakia and the American Zone of Germany was being reinforced in the Folmava (Ober Vollmau - N50/U79) area:

- a. A series of "U" shaped iron crosses, each two meters long, were installed as anti-tank defenses in the barren sectors of the Sunava border area. These crosses were brought by army trucks from Ceske Kubice (N50/U79) to the Folmava-Vseruby (Neumark, N50/U89) area.
- b. By the end of December the population of Fuchsova Hut (Fichtenbach, N50/U69) was almost completely evacuated. Only two German and one Czechoslovak woman remained, who were local state farm cattle keepers. This evacuation was in accordance with the plan for all border territories.
